

Welcome to the Tatura Veterinary Group clinics Veterinary Student program. We hope that your time with us proves productive and you gain as much experience as possible.

Make the most of your time with us to find out every thing you can. You are welcome to view all procedures and surgeries conducted at the clinics. You will also have the opportunity to travel out on calls with our large animal vets. Ask plenty of questions and get yourself involved!

During your time with us we want to ensure that you have the opportunity to experience a wide range of duties performed by our vets. To ensure this we have designed a list of tasks that we would like you to perform on your own at least once at some stage during your work experience. You can do these tasks in any order and at any time you choose. Just ask a staff member to explain or give you a demonstration of each task and then when you successfully completed a task that person can tick and sign your task list. You will have a signed document to add to your resume when applying for jobs proving that you have gained valuable experience working at our veterinary clinic. You never know it may be instrumental in placing you above another applicant who has no documented experience.

Please find attached an information sheet to be filled out and a copy of your resume returned to me prior to your arrival.

We look forward to having you join us.

Regards

Debbie Darbyshire
Practice Manager
